TRIADE MAXI

TRIADE MAXI is the concealed mounting bracket for shelves minimum 40mm thick. It has been conceived to simplify the shelf installation. It is provided with three independent adjustments:

- 1) VERTICAL: before installing the shelf, the mounting brackets can be adjusted in height and (vertically) aligned through the slots.
- 2) HORIZONTAL: while placing the shelf in position, the supporting pins can be slid horizontally.
- 3) INCLINATION: when the shelf is partially inserted, the shelf angle can be adjusted front to back by turning the supporting pins with a 12 mm open-ended wrench.

The capacity loading is 20 Kg each (shelf weight included) for a shelf max 400 mm deep. The minimum shelf depth required is 200 mm.

ADDITIONAL BENEFITS DUE TO SECURITY LOCKING FEATURE

- Simple additional drilling.
- Small diameter hole in the shelf (only $\varnothing 3,5$ mm).
- Multiple assembly and disassembly of the shelf.
- Suitable for all thicknesses.
- Tested on plywood, mdf and chipboard.

TRIADE MAXI AND BRACKET

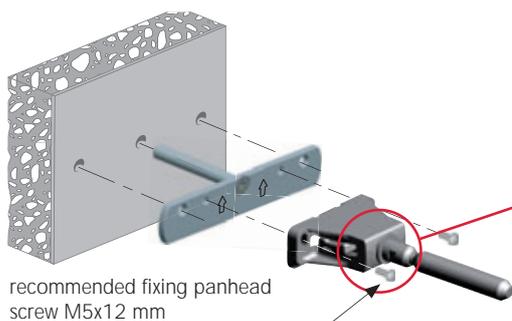

BRACKET FOR TRIADE MAXI and TRIADE XXL with pin is a valid complement to the concealed shelf supports Triade Maxi and Triade XXL.

Ideal to improve the shelf support capacity loading by evenly distributing the shelf load on the wall through a Ø8mm pin.

The Ø8mm pin allows to reduce the load taken by the two fixing screws.
